

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! Please reject the flat fee proposal!

It is not fair that people like me who make very few long distance calls will have to pay the same amount as businesses that make many calls. I have a calling card to keep in touch with my parents while I am away at college a wireless phone to use for emergencies during my long drives between school and home. Please do not increase my rates and the rates of many other people in my same situation!

Sincerely,

Stacy Hoehn
